Project: Lawn and Garden Sprinkler System - Install

Mr. West described his plan for our sprinkling system, and his crew installed it exactly like he described.

Everything works beautifully...All automatic and I can reprogram the system any way I want it. One huge yard job I

can ignore and let the system do the work. I am very pleased and highly recommend Mr West to do a great job for all who contact him. A big thank-you!

Project: Lawn and Garden Sprinkler System - Install

I had a great experience working with Ralph and will refer him to my friends. He was very punctual, professional,

and reasonably priced. He did what he said he would do, and that goes a long way.

Project: Lawn and Garden Sprinkler System - Install

Efficient, neat, and obviously experienced. The crew worked quickly and Ralph West was friendly and helpful

in explaining the control system to a senior.

Project: Lawn and Garden Sprinkler System - Install

This system was a surprise birthday gift for my husband. They made sure that the work was done before my husband

returned from a business trip. This despite some unfortunate weather and a serious family emergency.

The work was done

quickly and professionally. I am very happy with the whole experience.

Project: Lawn and Garden Sprinkler System - Install

They were in and out in about 5 hours (and we have a good size yard) and did a great job. If you didn't know that we

just had a sprinkler system installed, you wouldn't be able to tell by looking at the yard. They took care to replace everything (including all of the landscape that I had just personally installed) to pre installation condition.

Ralph's guys worked very hard and had no complaints with a few changes I needed to make to accommodate my future plans for the yard.

We are very pleased with the results. The remote control system Ralph offers is so convenient...I love it!

Project: Lawn and Garden Sprinkler System - Install

Ralph was sharp, and his installers were very professional. Two different rain storms came through, and his men stuck around to complete the installation by the end of the day.

Project: Lawn and Garden Sprinkler System - Install

Their work was very good, but next time they need to send more experienced people, who knows how to dig soil without cutting another line.

Project: Lawn and Garden Sprinkler System - Install

Precision Irrigation showed up on time, did a great job on the installation, and were very easy to contact. Ralph West offers superior products than most other installers and was easy to work with. The yard was a little more torn up than I expected following the installation, but I can overlook that due to their great service.
